# OccluSense®

The OccluSense® handheld is a battery powered device which uses your local wireless network to transfer the recorded data to the OccluSense®-iPad-App.

The inductive charger provides wireless power transfer. Fully charged batteries allow the usage of the device for up to 4 hours.

The OccluSense® Set contains these components and parts:  
OccluSense® handheld device, inductive charger, 1 box of 25 OccluSense® Sensors BK 5025, the OccluSense® Testsensor,  
3x AAA rechargeable batteries, a IP6 Torx screwdriver and the manual.  
OccluSense® Set in a blue suitcase [REF](#) BK 5000

# The OccluSense® Electronic Pressure Sensor:

- 60 microns thin
- flexible
- color coated

The technologically advanced OccluSense® pressure sensors allow the recording of the masticatory forces in 256 pressure levels.

The thin and flexible material permits the recording of both the static and the dynamic occlusion.

Additionally, the red color coating marks the occlusal contacts on the patient's teeth.

Inside the OccluSense® Set, one box of 25 sensors (BK 5025) is included.

OccluSense® Sensors XL 25 pieces  BK 5035

## Use like articulating paper. Record occlusal pressure.

Use the OccluSense® just like traditional occlusion test materials. The masticatory pressure of the static as well as the dynamic occlusion can be recorded and then stored in the OccluSense®-iPad-App.

The color coated OccluSense® Sensor marking the occlusal surface.

# The OccluSense®-iPad-App.

Record, evaluate, organize, compare and export the occlusal recordings.

The OccluSense®-iPad-App is free of charge to download from the Apple AppStore ([www.occlusense.com/install](http://www.occlusense.com/install)).  
Supported iPad models: 12.9" iPad Pro, 10.5" iPad Pro, 9.7" iPad Pro, iPad Air 1, iPad Air 2

Supported by:

on the basis of a decision  
by the German Bundestag
